

Roseville Kids Care

Winter Vacation Care July 2017

Winter VAC

The children reached dizzying new heights at Sky Peaks on **Monday**. The younger kids tried their hand on the low ropes which had fun obstacles to scale, weave, balance and swing on. The taller kids could go all the way to the third level and try out sitting at a picnic table suspended above everyone or bungee swing to the ground. Everyone was super brave and gave it a go.

or build cities in Minecraft. Outside there were games of laser tag and a giant zorb ball or ride in.

Pow! Bam! Wammy! Superheroes were everywhere at kids care today! We had Batman busting down the door, Wonder Women saving the day (and Iron Man doing whatever he wants to cause he is just too cool) as well as lots of other colourful characters. Kids crafted

their own costume accessories and competed to capture the villains in the hall.

On **Wednesday**, we were off the Roseville Public School to get gaming with the crew from Games2U. They brought Just Dance so you could get our groove on, race your friends in Mario Kart

The animals were not the only wild ones at the zoo on **Thursday**. The children had a fantastic time exploring Taronga. We rode on the sky lift, splashed around at the seal

show, dodged birds, rode giant lizards, and saw the new baby elephant Jai Dee plus much more! Everyone was very tired by the end of the day and some fell asleep on the bus before we even got back to the centre to play sleeping lions.

Friday was another fun filled trip to RPS where we were met by Extreme Incursions. The task was to build a shelter that would be waterproof and windproof and fit your team under. It was a great test of survival skills and teamwork.

Week 2

Monday of was a movie day with a retro twist as the children created cardboard cars for our Drive In Movie theatre. We set up a projector in the hall where we watched the Batman Lego Movie and Moana. The year 5 and 6 kids even set up a candy bar so the kids could have a cinema snack of popcorn and lollies. There was lots of cinematic themed craft like Minion grass heads, Baymax marshmallow men and general gymnastic fun in the courtyard.

It was a gorgeous day on Tuesday and we were lucky enough to spend our time at Blaxland Park in Homebush. There were flying foxes, lots of swings,

walls of slides, rock and rope climbing and a fountain play area. We even had ice-cream as a treat for morning tea. Ice-cream in Winter, can you believe it?

On Wednesday we stayed in but that didn't mean we had any less fun. Our Around the World theme meant learning how to make our own pasta, colouring sand mandalas and enjoying a big Asian buffet lunch.

Thursday was action stations as we took our wheels to RPS to ride around. There were scooters, skateboards, bikes and best of all GO KARTS! The kids loved

riding the pedal powered go karts around the quadrangle, setting up obstacle courses and acting as traffic control.

Friday we caught the bus to Sydney Ice Arena to test out our skills at skating. It was great to see so many children give it a go (and follow the safety instructions so no one lost any fingers!) While some took time to get steady on their feet many were zipping about the ice independently by the end

of our session.

From ice skating to figure skating we headed back to Homebush on Monday to fit in one more excursion. Frozen on Ice proved to be a big hit with everyone both young and old. The skaters were very talented, the songs were as catchy as ever and at the very least if Disney wasn't your thing you had the park to play in afterwards. It was a fun way to end the holidays.

If you have lost any hats, jumpers or drink bottles during the VAC period please check our emails with photos of lost property as we will be donating anything uncollected at the end of next week.

For more photos from each day please visit our website <http://rosevillekidscafe.com.au> and visit the galleries.
